R\L

REDA LITCHI

JUNIOR WEB DEVELOPER

PERSONAL PROFILE

Ambitious developer freshly graduated and with one year of professional experience (apprenticeship), I have built multiple Backends, User Interfaces, Mobile Apps, for different clients and/or school projects.
Now looking for a position in a new company, I can take on Fullstack-Frontend-Backend roles, and I am ready to learn even more.

EDUCATION

Web@cademie, Ambition féminine

2018 - 2020

- Delivering projects on time
- Self learning & reflection
- Learning as much as I can in any domain

Lycee Jules Ferry, CANNES

BACCALAUREAT STI2D, 2016

- Mention "Assez Bien"

WORK EXPERIENCE

AppDrag - APPALGA, Fullstack Developper

11/2019 - 10/2020

- Built custom Backend-APIs for multiple clients (GoodVibes, LaPlace, HappyPal, LAFAAAC...) in NodeJS.
- Built a VSCode extension and a Command Line Interface, helping clients use AppDrag's features and modify their projects locally.
- Experience talking with clients.

ACQUIRED SKILLS

Front end : React, HTML, CSS, Javascript, Bootstrap, SASS, JQuery, Flutter, React-Native
Back end : Laravel, Symfony4, NodeJS, Typescript, Express, Adonis, Ruby on rails, .NET WPF (MVVM), Django, Socket.io
Other : C (base-level)

SCHOOL PROJECTS

- **Flutter App :** Working with last.fm's API and the GPS feature of the phone to create a "Dating/Meeting" App that would show the user the people close to him and what they listened to.
- **Online multi-user JS Paint :** Using Socket.io and JQuery, I made an online page that had all the features of Paint, but could be drawn on by multiple people at the same time.
- **PiePHP:** Using vanilla PHP, built a working MVC framework.
- **E-Commerce:** Using React with a Symfony4 API, built a complete E-Commerce website.

HOBBIES

Video games
Music Production
Sports - Soccer - Basketball
Cinema
